1 UNIT 1 QUIZ · 1 OF 3

STUDENT QUIZ

Name: _____ **Date:** _____

Class/Period: _____ **Total:** 20 points

Use the fictional scenarios. A calculator is allowed unless your teacher's policy says otherwise. Show your own work for calculations.

1. BUDGET MEANING — 1 POINT

Which statement best describes a budget?

A. A list of everything someone wants to buy
B. A plan for how money will be used
C. A record of only fixed expenses
D. A rule that requires every person to save the same percentage

Answer: _____

2. FIXED OR VARIABLE? — 2 POINTS

Write **F** for fixed or **V** for variable.

- Monthly apartment rent: _____
- Weekly grocery spending: _____

3. CALCULATE THE BALANCE — 2 POINTS

Jordan has:

- Income: **$1,100**
- Expenses: **$760**
- Planned savings: **$140**

Income − Expenses − Savings = Balance

$1,100 − $760 − $140 = $_____

Is the balance positive, zero, or a shortfall? _____
